

Girante - Impeller  
VORTEX

Passaggio corpi solidi  
Free passage  
Ø 75 mm

■ Applicazioni

Elettropompa sommergibile Vortex con alte prestazioni per fognature pesanti. Per il convogliamento di acque reflue e grezze, fanghi rattivati, fanghi grezzi e fanghi putridi, miscugli di acque.

■ Motore

Motore asincrono a 4 poli con rotore a gabbia di scoiattolo. Isolamento Statore: Classe F = 155°C. Grado Protezione: IP 68.

■ Tenute

Tenuta lato motore: Ceramica/Graffite Ø20. Tenuta lato girante: Carburo di silicio+Viton Ø20.

■ Direttive, Normative, Tolleranze

Curve secondo ISO 9906 livello 2

■ Applications

Submersible Vortex type electric motor pump for high delivery operations for heavy sewage plants. For pumping of raw and waste waters, stirred sludge, raw sludge, rotten sludge, mixed waters.

■ Motor

Asynchronous electric 4 poles motor with squirrel-cage rotor. Stator Insulation: F = 155 °C. Protection class: IP 68.

■ Seals

Seal type applied to the motor side: Carbon/Ceramic Ø20. Seal type applied to the wet end side: Silicon-Carbide+Viton Ø20.

■ Directives, Norms, Tolerances

Curves as per ISO 9906, Grade 2

Girante - Impeller  
VORTEX

Passaggio corpi solidi  
Free passage  
Ø 100 mm

## ■ Applicazioni

Electropompa sommergibile Vortex con alte prestazioni per fognature pesanti. Per il convogliamento di acque reflue e grezze, fanghi rinvivati, fanghi grezzi e fanghi putridi, miscugli di acque.

**■ Motore**

Motore asincrono a 4 poli con rotore a gabbia di scoiattolo.  
Isolamento Statore: Classe F = 155°C  
Grado Protezione: IP 68

**Tenute**

Tenuta lato motore: Ceramica/Graffite Ø25  
Tenuta lato girante: Carbuco di silicio+Viton Ø25

## ■ Direttive, Normative, Tolleranze

Curve secondo ISO 9906 livello 2

## ■ Applications

Submersible Vortex type electric motor pump for high delivery operations for heavy sewage plants. For pumping of raw and waste waters, stirred sludge, raw sludge, rotten sludge, mixed waters.

**Motor**

Asynchronous electric 4 poles motor with squirrel-cage rotor.  
Stator Insulation: F = 155 °C  
Protection class: IP 68

**Seals**

Seal type applied to the motor side: Carbon/Ceramic Ø25  
Seal type applied to the wet end side:  
Silicon-Carbide+Viton Ø25

### ■ **Directives, Norms, Tolerances**

Curves as per ISO 9906, Grade 2

Girante - Impeller  
VORTEX

Passaggio corpi solidi  
Free passage  
Ø 90 mm

- Applicazioni**  
Elettropompa sommergibile Vortex con alte prestazioni per fognature pesanti. Per il convogliamento di acque reflue e grezze, fanghi ravrivati, fanghi grezzi e fanghi putridi, miscugli di acque.
- Motore**  
Motore asincrono a 4 poli con rotore a gabbia di scoiattolo. Isolamento Statore: Classe F = 155°C  
Grado Protezione: IP 68
- Tenute**  
Tenuta lato motore: Ceramica/Graffite Ø30  
Tenuta lato girante: Carburo di silicio+Viton Ø30
- Direttive, Normative, Tolleranze**  
Curve secondo ISO 9906 livello 2

- Applications**  
Submersible Vortex type electric motor pump for high delivery operations for heavy sewage plants. For pumping of raw and waste waters, stirred sludge, raw sludge, rotten sludge, mixed waters.
- Motor**  
Asynchronous electric 4 poles motor with squirrel-cage rotor. Stator Insulation: F = 155 °C  
Protection class: IP 68
- Seals**  
Seal type applied to the motor side: Carbon/Ceramic Ø30  
Seal type applied to the wet end side: Silicon-Carbide+Viton Ø30
- Directives, Norms, Tolerances**  
Curves as per ISO 9906, Grade 2

Girante - Impeller  
VORTEX

Passaggio corpi solidi  
Free passage  
Ø 90 mm

Applicazioni

Elettropompa sommersibile Vortex con alte prestazioni per fognature pesanti. Per il convogliamento di acque reflue e grezze, fanghi rattivati, fanghi grezzi e fanghi putridi, miscugli di acque.

Motore

Motore asincrono a 4 poli con rotore a gabbia di scoiattolo. Isolamento Statore: Classe F = 155°C. Grado Protezione: IP 68

Tenute

Tenuta lato motore: Carburo di silicio+Viton Ø55. Tenuta lato girante: Carburo di silicio+Viton Ø55

Direttive, Normative, Tolleranze

Curve secondo ISO 9906 livello 2

Applications

Submersible Vortex type electric motor pump for high delivery operations for heavy sewage plants. For pumping of raw and waste waters, stirred sludge, raw sludge, rotten sludge, mixed waters.

Motor

Asynchronous electric 4 poles motor with squirrel-cage rotor. Stator Insulation: F = 155 °C. Protection class: IP 68

Seals

Seal type applied to the motor side: Silicon-Carbide+Viton Ø55. Seal type applied to the wet end side: Silicon-Carbide+Viton Ø55

Directives, Norms, Tolerances

Curves as per ISO 9906, Grade 2

Applicazioni

Elettropompa sommersibile Vortex con alte prestazioni per fognature pesanti. Per il convogliamento di acque reflue e grezze, fanghi rattivati, fanghi grezzi e fanghi putridi, miscugli di acque.

Motore

Motore asincrono a 4 poli con rotore a gabbia di scoiattolo. Isolamento Statore: Classe F = 155°C. Grado Protezione: IP 68

Tenute

Tenuta lato motore: Carburo di silicio+Viton Ø55. Tenuta lato girante: Carburo di silicio+Viton Ø55

Direttive, Normative, Tolleranze

Curve secondo ISO 9906 livello 2

Applications

Submersible Vortex type electric motor pump for high delivery operations for heavy sewage plants. For pumping of raw and waste waters, stirred sludge, raw sludge, rotten sludge, mixed waters.

Motor

Asynchronous electric 4 poles motor with squirrel-cage rotor. Stator Insulation: F = 155 °C. Protection class: IP 68

Seals

Seal type applied to the motor side: Silicon-Carbide+Viton Ø55. Seal type applied to the wet end side: Silicon-Carbide+Viton Ø55

Directives, Norms, Tolerances

Curves as per ISO 9906, Grade 2

| Descrizione Description                           | Materiali Materials                                  |
|---------------------------------------------------|------------------------------------------------------|
| 1 Cassa motore - Motor casing                     | Ghisa G25 - Cast iron G25                            |
| 2 Porta cuscinetto - Bearing support              |                                                      |
| 3 Ghiera blocca cuscinetto - Bearing locking ring |                                                      |
| 4 Corpo pompa - Pump casing                       |                                                      |
| 5 Porta motore - Motor support                    | Acciaio inox Aisi 416 - Stainless steel Aisi 416     |
| 6 Girante - Impeller                              |                                                      |
| 7 Anello catena - Chain ring                      |                                                      |
| 8 O' Ring - O' Ring                               |                                                      |
| 9 Cuscinetto superiore - Upper ball bearing       | Gomma nitrilica - Nitrilic rubber                    |
| 10 Cuscinetto inferiore - Lower ball bearing      |                                                      |
| 11 Statore - Stator                               | Acciaio inox Aisi 420 - Stainless steel Aisi 420     |
| 12 Rotore - Rotor                                 |                                                      |
| 13 Albero motore - Motor shaft                    |                                                      |
| 14 Passacavo - (Cable) Grammet                    |                                                      |
| 15 Ghiera del pressacavo - Locking ring           | Acciaio inox Aisi 416 - Stainless steel Aisi 416     |
| 16 Cavo alimentazione - Net supply cable          |                                                      |
| 17 O' Ring - O' Ring                              | Gomma nitrilica - Nitrilic rubber                    |
| 18 O' Ring - O' Ring                              |                                                      |
| 19 Sensore umidità - Conductivity seal sensor     | Carburo di silicio + viton - Silicon carbide + viton |
| 20 Tenuta meccanica sup. - Upper mech. seal       |                                                      |
| 21 Tenuta meccanica inf. - Lower mech. seal       | Acciaio inox Aisi 304 - Stainless steel Aisi 304     |
| 22 Chiavetta - Key                                |                                                      |
| 23 Tappo olio - Oil plug                          |                                                      |
| Viteria - Bolts                                   | Acciaio inox Aisi 304 - Stainless steel Aisi 304     |
